PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Lead **CASRN:** 7439-92-1
Narrative description of proposed project and the method we will use to measure success: _____

Sylvin has set its goal to be lead free by the end of 2006 by establishing yearly goals and achieving these goals by convincing our customers to switch to our newly developed lead free versions of their old compounds. In the 2003 calendar year, we used 225,244 pounds of lead. For 2004, we will decrease our need for lead by 125,244 pounds. For 2005, we will reduce by another 50,000 pounds. By the end of 2006, Sylvin Technologies will be lead free.

1. Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated from a baseline amount of 225,244 pounds generated in January, 2004 (month/year) to a reduced amount of 100,000 pounds generated by December, 2004 (month/year).

2. To accomplish this goal, we will explore the following source reduction options (check all that apply):

3. Our (optional) voluntary recycling or recovery goal for Chemical #1 is to increase the amount of this chemical recycled or recovered from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

4. To accomplish this recycling or recovery goal, we will explore the following options (check all that apply).

<input type="checkbox"/> Direct use/reuse in a process to make a product.
<input type="checkbox"/> Processing the waste to recover or regenerate a usable product.
